**FIRST QUARTERLY RESULTS ANNOUNCEMENT  
FOR THE THREE MONTHS ENDED 30 SEPTEMBER 2012**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK  
EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

## 9. Comparative figures

For the purpose of presenting discontinued operations, certain comparative figures have been reclassified to conform with the current period’s presentation.

## **MANAGEMENT DISCUSSION AND ANALYSIS**

For the first quarter ended 30 September 2012, the Group recorded a turnover from continued operations of approximately HK\$8,670,000 (2011: HK\$30,086,000), representing a substantial decrease of approximately HK\$21,416,000 or 71.2% as compared to the same quarter of last year. The Group recorded a loss attributable to owners of the Company of approximately HK\$6,735,000 for the three months ended 30 September 2012, in contrast to a profit of approximately HK\$7,470,000 for the same period in last year. The substantial decrease in turnover and loss for the period was mainly because: 1) approximately 1,000 traffic lights in aggregate located in Xiamen and Nanchang have been temporarily uninstalled due to road expansion and subway construction carried out by the municipal governments; and (2) the number of advertising agents that the Group has co-operated with has dropped from three to one during the period due to fierce competition and the worsening economic situation in the PRC.

### **Design and production of traffic signboards, computer graphics, advertisements and signal system equipment**

During the period under review, Ease Ray Group continued to contribute revenue and operating profit to the Group. However, due to road expansion and subway construction carried out by the municipal governments of Xiamen and Nanchang, our pedestrian traffic lights located in the two cities are required to be temporarily uninstalled. In addition, due to fierce competition in the outdoor advertising industry and the worsening economic situation in the PRC, the number of advertising agents which co-operated with us has dropped from three to one.

### **Sales of telecommunication products and provision of wireless services**

Due to the continuous development of broadband wireless mobile telecommunication technology and the increasing popularity of 3G services, the technology of our telecommunication service package has been considered outdated in the market. As a result, China Wimetron Group did not generate any revenue during the three months ended 30 September 2012. Turnover for the period represents telecommunication equipment installation fee income generated by Smart Long Group.

### **Film exhibition and film rights licensing and sub-licensing and artiste management**

On 21 June 2012, the Company entered into a sale agreement with an independent third party in respect of the disposal of the business of these two segments for a consideration of HK\$8,000,000 (the “Disposal”). The Disposal was completed on 28 September 2012.

## **PROSPECTS**

The venturing into the telecommunication and outdoor advertising media sectors in the PRC has been an important move of the Group to benefit from these fast growing sectors. Although the Group encountered challenges to survive this harsh economic environment, the Directors are optimistic in the overall economy of the PRC as the Chinese government continues to stimulate domestic demand and consumption.

As the Group has completed the disposal of its non-core business, i.e. film exhibition and film rights licensing and sub-licensing and artiste management, the Group is able to focus its limited resources to develop its telecommunication and outdoor advertising media businesses. In the meantime, the Group will continue to consider various alternatives in obtaining additional resources, such as the entering into an agreement to issue unlisted warrants of the Company on 5 November 2012, and to seek investment opportunities.

The Company is currently under preliminary negotiation with a former director of the Company regarding a possible acquisition of a network service business for higher education institutions in the PRC (the “Possible Acquisition A”).

In addition, on 29 October 2012, the Company entered into a letter of intent with an independent third party (the “Vendor”), pursuant to which the Company intends to acquire from the Vendor the entire issued shares of a company to be incorporated by the Vendor as its wholly-owned subsidiary (the “Target Company”), which will directly and wholly own the Vendor’s five existing subsidiaries in the PRC (the “PRC Subsidiaries”) upon completion of a corporate restructuring (the Target Company and the PRC Subsidiaries collectively referred as the “Target Group”) (the “Possible Acquisition B”).

The Target Group owns a self-developed carrier level cloud computing management system, and possesses the relevant experience, technology and network systems for provision of Internet video services and other online content services.

If the Possible Acquisition A and the Possible Acquisition B proceed, it is expected to create a synergy effect on the business of these two possible acquisitions as well as with the business of China Wimetro Group and Smart Long Group.

### **Share capital**

As at 1 July 2012 and 30 September 2012, the authorized share capital of the Company was HK\$400,000,000 divided into 4,000,000,000 shares of HK\$0.10 each and the issued share capital of the Company was approximately HK\$232,692,000 divided into 2,326,920,793 shares of HK\$0.10 each.

## Issue of unlisted warrants

On 5 November 2012, the Company entered into warrant subscription agreements with six independent third parties (the “Subscribers”), pursuant to which the Company agreed to issue and the Subscribers agreed to subscribe for an aggregate of 200,000,000 unlisted warrants at an issue price of HK\$0.01 per warrant (the “Warrants”). Each of the Warrants carries the right to subscribe for one new share of the Company at the initial exercise price of HK\$0.54 per Share (subject to adjustment) during a period of two years commencing from (and inclusive of) the date of issue of the Warrants. The issue of the Warrants has not been completed as of the date of this announcement.
